## INDIGENOUS PLANT NURSERIES

These nurseries supply trees, shrubs, ground cover, wildflower and wetland plants.

For indigenous plants list/s specific to your property (Yarra Ranges only) contact the Environment Department on 1300 368 333 or visit the following sites:

- [www.yarraranges.vic.gov.au/plants](http://www.yarraranges.vic.gov.au/plants)
- [www.yarraranges.vic.gov.au/maps](http://www.yarraranges.vic.gov.au/maps)

### Availability of stock:

Most nurseries keep a stock of plants that are commonly requested by their customers. However your supplier may not have all the species or the quantities that you require.

If you know the species and the quantities that you need, it is far easier to place an order. Orders for tubestock can take up to 6 months for delivery depending on size of plants required and the time of year. Place an early order and be assured of getting the right plants when you need them.

### Note:

The above list is not exhaustive, nor is it a list of preferred providers. It is to be used as a guide, if you are aware of any other providers, or if you would like to appear on the list please contact the Environment Department on 1300 368 333.
